## **RIX2024-Batch 1 - Goal Setting & Time Management Assessment**

### **Project: Organizing a product launch Event**

Your software development company has developed a new software application tailored to the specific needs of a client in the financial services industry. The client has requested a launch event to introduce the software to their employees, partners, and key stakeholders. The event is scheduled to take place in two months

### **Task: Prepare SMART goals for the given scenario**

**A:**

Specific:

- Organize a launch event to introduce the new financial software to the client's employees, partners, and stakeholders.
- Showcase the software's features, benefits, and business impact.

Measurable:

- Achieve at least 90% attendance from the invited guest list (target: 150+ attendees).
- Collect a minimum of 100 completed feedback forms.
- Generate at least 3 partnership or business inquiries post-event.

Achievable:

- Collaborate with the client's internal teams (marketing, IT, leadership).
- Hire an experienced event planner or agency.
- Allocate a budget of ₹10 lakhs for venue, logistics, branding, and promotions.

Relevant:

- Supports the client's goal of successful software adoption and stakeholder engagement.
- Enhances your company's visibility and credibility in the financial services sector.

Time-bound:

- Complete all planning and execution within 8 weeks.
- Schedule a final dry runs 3 days before the event date.

## Time management scenario

Imagine you are starting your first day at the company and have 30 minutes to plan your ideal workday. Prepare the To-do list of below given tasks by using Eisenhower matrix to prioritize the tasks, and time allocations and list potential distractions and ways to minimize them.

1. Prepare for DS call scheduled today
2. Technical assessment preparation scheduled on Tuesday
3. Assignment completion report generation before Friday
4. Activities Tracker updating EOD 6'0 clock
5. Timesheet updating EOD
6. Sending mail for leave before 5 pm
7. Completion of communication Assignments before Wednesday
8. Scheduling a Team meeting at 1 o'clock

A:
