Reflections:

The screenshot shows the Bitbucket web interface for a repository named 'Collab Scenario' under the user 'skyabovesky'. The interface includes a top navigation bar with links for 'Your work', 'Pull requests', 'Repositories', 'Projects', and 'More', along with a 'Create' button and a search bar. The left sidebar contains a list of repository features: 'Source' (selected), 'Commits', 'Branches', 'Pull requests', 'Pipelines', 'Deployments', 'Jira issues', 'Security', 'Downloads', and 'Repository settings'. The main content area displays the 'Collab Scenario' repository page, which includes a description, a 'developing' branch selector, a file filter, and a table of files. The table lists three files: '.vscode', 'Calculator', and 'Calculator.sln', each with its size, last commit time, and commit message.

Name	Size	Last commit	Message
.vscode		39 minutes ago	Initial Skeletal Code
Calculator		1 minute ago	Definitions are added
Calculator.sln	984 B	39 minutes ago	Initial Skeletal Code

GitHub Collaboration

Team Lead: Tarun.B (tarunb-0127)

1. Created a repo for team

2. The branches of team members are viewed

3. Team collaborators

The screenshot shows the GitHub repository settings for 'tarunb-0127 / team-assesment-repo'. The 'Collaborators and teams' section is active, displaying a list of collaborators. A notification at the top states 'Removed arulbegonia2003 as a collaborator of tarunb-0127/team-assesment-repo'. The left sidebar contains navigation links for General, Access, Collaborators, Moderation options, Code and automation, Branches, Tags, Rules, Actions, Webhooks, Environments, Codespaces, Pages, Security, Code security, Deploy keys, Secrets and variables, and Integrations. The main content area shows the repository is public and visible to anyone. It also indicates that 2 users have access to the repository. The 'Manage access' section lists two collaborators: ArulBegoniaVincent and Madhavan0902, both with 'Collaborator' roles. A search bar is provided to find collaborators.

4. Pull requests by the team members

The screenshot shows the GitHub interface for the repository 'team-assessment-repo'. The 'Pull requests' tab is selected, showing 2 open pull requests. A notification banner at the top encourages labeling issues and pull requests for new contributors. Below the notification, there are filters for 'is:pr is:open' and buttons for 'Labels 9', 'Milestones 0', and 'New pull request'. The list of pull requests includes:

- Modified**: #2, opened now by ArulBegoniaVincent
- Feature1commit**: #1, opened 4 minutes ago by Madhavan0902

A 'ProTip!' at the bottom suggests finding pull requests not related to any open issues using the '-linked:issue' filter.

5. Conflict resolve

The screenshot shows the GitHub interface for the repository 'team-assessment-repo', specifically for pull request #1 titled 'Feature1commit'. The page indicates 'Resolving conflicts between Feature/Method1 and main and committing changes'. A sidebar on the left shows '1 conflicting file' and 'Program.cs' in the 'Calcaltor/Program.cs' directory. The main area displays the code for 'Calcaltor/Program.cs' with line numbers 1 through 26. The code includes a 'using System;' statement, a 'Feature/Method1' section, and a 'main' method. A red bracket on the right side of the code indicates a conflict between the two versions of the 'Add' method.

```
1 using System;
2 <<<<<< Feature/Method1
3
4 void Add (int a,b){
5     int s = a+b;
6     console.WriteLine(s);
7 }
8 =====
9 void add(int a,int b, int c) {
10     Console.WriteLine("Number 1:");
11     int a = Convert.ToInt32(Console.ReadLine());
12     Console.WriteLine("Number 2" );
13     int b = Convert.ToInt32(Console.ReadLine());
14     Console.WriteLine("Number 3");
15     int c = Convert.ToInt32(Console.ReadLine());
16     add(a,b,c);
17 }
18 >>>>>> main
19
20 class Program
21 {
22     static void Main()
23     {
24         Console.Write("Hello");
25         add(1,2);
26     }
```
